

WHEEL ALIGNMENT SYSTEMS

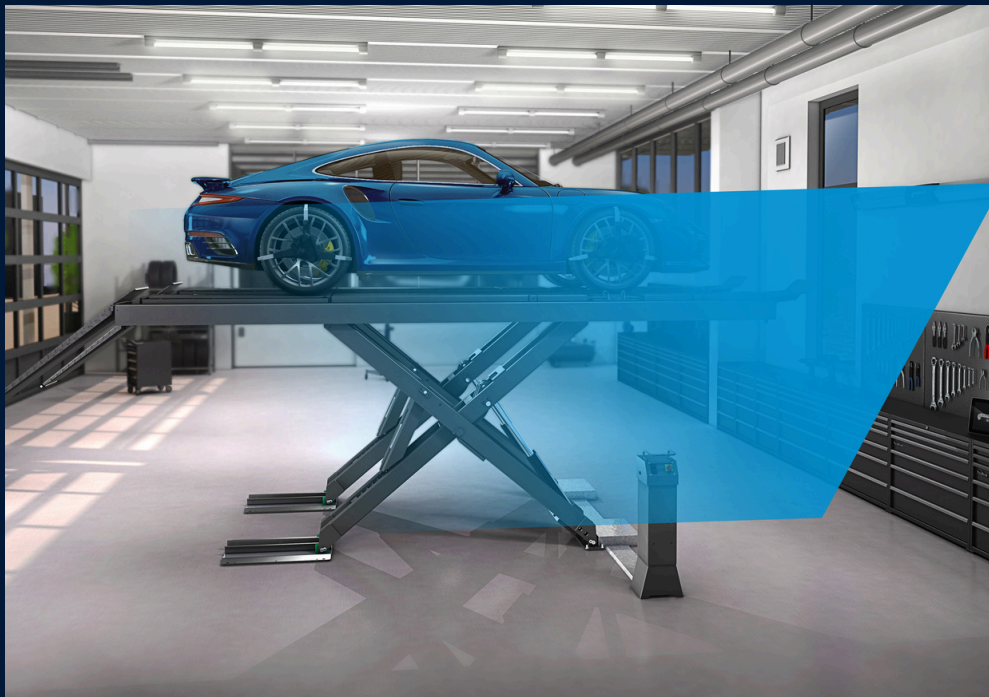

STRAIGHTSET.CO.UK

LEADERS IN WHEEL ALIGNMENT

Straightset offers genuine choice and flexibility when it comes to choosing the right wheel alignment system for your needs and budget. With systems available from Supertracker, Beissbarth, HPA-Faip and Cemb.

These systems can be demonstrated in our dedicated wheel alignment training studio in Worksop, Nottinghamshire. Contact us at info@straightset.co.uk.

WHEEL ALIGNMENT RANGE

01

HIGH PERFORMANCE

Wheel Alignment systems from Beissbarth and Cemb providing seamless, innovative wheel alignment checks, with the latest technology and clamping systems.

02

MID-RANGE

Range of CCD and 3D systems available from Supertracker, Beissbarth and HPA-Faip. Offering preloaded vehicle databanks and customer printout options.

03

ENTRY LEVEL

A simple to use range of laser wheel alignment systems from Supertracker. Specific car and commercial systems available.

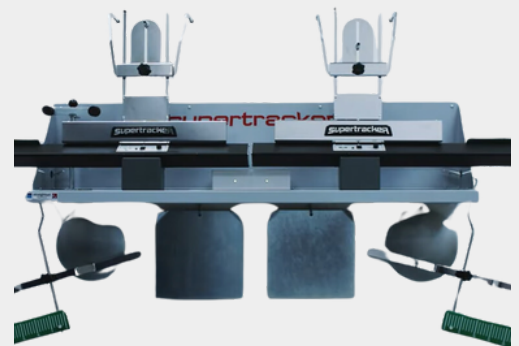

ENTRY LEVEL WHEEL

FOR CARS - LIGHT COMMERCIAL VEHICLES

STR1 HALF CAB | LASER SYSTEM ON WALL MOUNTED CABINET

Leading laser 4 wheel alignment system from Supertracker. The popular, robust, cordless wall mounted laser aligner, with 'hang on' system which simply and accurately measures toe and thrust angle as standard.

Complete with:
1 x Wall mounted storage unit c/w charging system
2 x Laser Measuring Heads c/w Wheel Hangers 12" to 24"
2 x Green Rear Scales
Dished turn plates and steering wheel lock

STR1 TROLLEY | LASER SYSTEM ON MOBILE TROLLEY

The popular laser alignment system on mobile trolley for moving around the workshop, with hang on system which simply and accurately measures toe and thrust angle as standard.

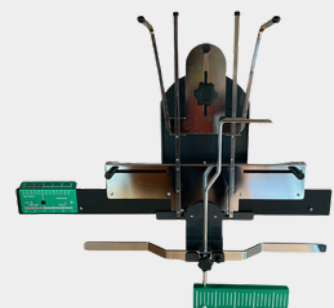

Complete with:
1 x Illuminated Mobile Merchandising Trolley c/w charging systems
2 x Laser Measuring Heads c/w Wheel Hangers 12" to 24"
2 x Green Rear Scales
Dished turn plates and steering wheel lock

STR1 MOBILE | LASER SYSTEM FOR MOBILE WHEEL ALIGNMENT

The popular laser alignment system is available for those offering mobile wheel alignment services. Featuring a robust, compact bracketry system, the STR1 can be securely stowed inside vans. Available for charging inside or outside the van.

Complete with;
2 x bracketry system to hold a head and scale
2 x Measuring Heads
2 x Rear Scales
1 x Charger Unit

ALIGNMENT SYSTEMS

FOR COMMERCIAL VEHICLES - HEAVY DUTY

STR1500 | COMMERCIAL TRACKING GAUGE

A Commercial Two-Wheel Laser Tracking Gauge. Perfect for quick checks and small front toe adjustments, this handy tool comes with heavy duty turn plates and its own calibration bars.

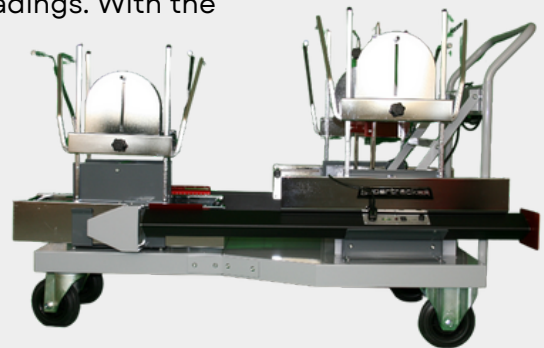

- 2x Wall Brackets
- 1x Laser Measuring Head
- 1x Mirror Measuring Head
- 2 x Calibration Bars
- 2 x Truck Dished Turn Plates and Bases
- 1x Charger Unit
- 1x Truck Steering Wheel Lock

STR T4 | TWIN STEER LASER COMMERCIAL ALIGNER

Twin Steer Truck Aligner allows alignment of multi-axes in minutes. All measurements can be read at the same time with no need to move measuring heads back and forth over axles to obtain readings. With the ability to measure toe and thrust angle as standard.

- 2 x Laser Measuring Heads
- 4 x Wheel Hangers
- 2 x 2nd Steer Mirror Heads
- 1x Trolley c/w Battery Charging System
- 2 x Rear Scales
- 1x Steering Wheel Lock
- 2 x Pairs of Truck Dished Turn Plates and Bases

supertracker

Wheel Alignment systems from Supertracker, using the latest green laser technology, for increased visibility in a wider range of light conditions, to provide everything you need for a quick and easy wheel alignment measurement.

All systems utilise the 'hang on' system which is a quick and efficient way of hanging the measuring heads onto the tyres with no metal on metal contact.

Supertracker laser wheel alignment systems are manufactured in the UK.

MID RANGE WHEEL

STR130 | 6 SENSOR CCD

supertracker
- Straight forward wheel alignment -

The iconic Six Sensor CCD hang on Alignment System from Supertracker, with a user friendly and intuitive operating system and extensive vehicle database.

Mobile workstation complete with:
4 x Bluetooth BT2 Digital Infra-red Sensors
4 x Wheel Hangers 12" to 24" (upgrade to 25" now available)
24" Monitor, Computer with Keyboard and Mouse
Lithium Battery Recharging System
Dished Turn Plates with bases, Foot Brake Pedal Depressor and Steering Wheel Lock

STR420 | 8 SENSOR CCD

supertracker
- Straight forward wheel alignment -

The Supertracker Eight Sensor Computerised Alignment hang on wheel alignment system, with a user friendly and intuitive operating system and extensive vehicle database.

Mobile workstation complete with:
4 x Bluetooth BT2 Digital Infra-red Sensors
4 x Wheel Hangers 12" to 24" (upgrade to 25" now available)
24" Monitor, Computer with Keyboard and Mouse
Lithium Battery Recharging System
Dished Turn Plates with bases, Foot Brake Pedal Depressor and Steering Wheel Lock

EASY CCD+ | 8 SENSOR CCD

BEISSBARTH
MESSBAR BESSER

Eight sensor CCD technology from Beissbarth, includes OEM Vehicle database, +Software with SmartTest for direct reception and ADAS calibration option.

Cabinet complete with;
4x Multi-fit wheel clamp 13" - 22" with standard claws
4x Sensor head with encoder and battery power
27" monitor, Printer, Keyboard, Mouse
2x Mechanical Turntables without electronics
Brake pedal depressor and steering wheel holder

ALIGNMENT SYSTEMS

INEXT | CRUCIFIX 3D

C 880 iNEXT is a crucifix style 3D wheel aligner with two camera reading system. Compatible with the new universal PROADAS.

- 4x 4-points 10"-21" wheel clamps for cars, with 26" extenders included
- Pair of mechanical turntables with ROC adapters
- Motorized camera beam with wormgear system
- Drive-On Assistant for easy vehicle positioning
- LCD/LED widescreen Monitor
- Brake pedal depressor and steering wheel lock

EASY 3D+ | 3D

3D high precision, easy to use technology from Beissbarth, includes OEM Vehicle database, +Software with SmartTest and ADAS calibration option.

- Cabinet complete with:
- 4x Multi-Fit wheel camp 13" - 22" with standard and Softline claws
 - 4x Sensor head technology with DualView camera technology
 - 27" Monitor, Printer, High performance PC
 - 2x mechanical Turntables without electronics
 - Brake pedal depressor and steering wheel holder

Straightset prides itself on offering genuine choice and flexibility when it comes to all of its equipment from a range of trusted brands. We choose partners who not only offer quality products but also offer exceptional aftercare services.

We can advise on the right system for your needs depending upon the range of vehicles you service, space within your workshop, brand preference, individual requirements, as well as budget.

STRAIGHTSET.CO.UK

HIGH PERFORMANCE WHEEL ALIGNMENT

Q.LIGN | WEB BASED 3D

Innovative web-based 3D wheel aligner. With patented Q.Grip clamping technology for attaching to the tyre within seconds. No trolley, PC or crucifix required, providing space saving advantages. Alignment values always in sight from under the vehicle with the four OLED screens on the sensor heads.

VAG approved model available - VAS701011. Other OEM approvals imminent.

- 2 compact Q.Lign sensor heads with OLED displays
- Trolley with display module, 27" monitor and printer
- 2 Li-Ion batteries with charging station
- 4x Q.Grips without rim contact
- 4x targets with auto-identification
- Steering wheel and brake pedal lock
- Front turnplates

ARGOS | TOUCHLESS ALIGNMENT

Argos Drivethru is the inspection system that, positioned in the acceptance area of the workshop, detects in a few seconds all the incoming vehicles that show anomalies and need adjustments.

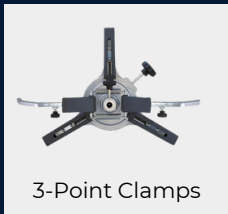

Without any contact with the vehicle, Argos Drivethru performs a complete wheel alignment check, including partial toe and steering angle.

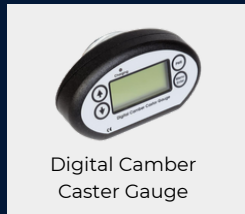

ACCESSORIES & AFTERCARE

Full range of accessories available including:

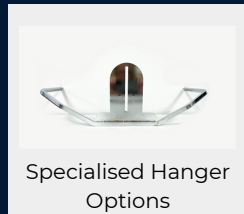

Supertracker Accessories

3-Point Clamps

Digital Camber Caster Gauge

Specialised Hanger Options

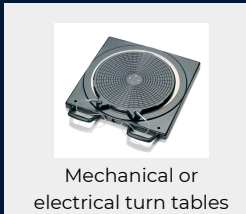

Run up ramps & turn plates

Alignment Tables

Beissbarth Accessories

Mechanical or electrical turn tables

Manufacturer specific clamps

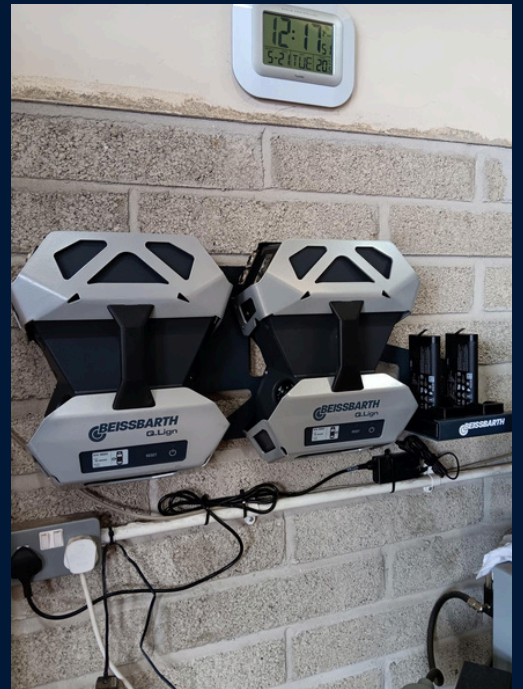

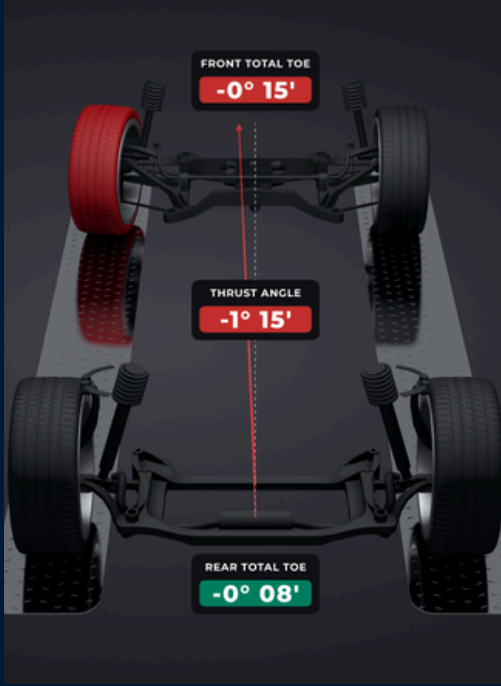

NATIONAL AFTERCARE SERVICING

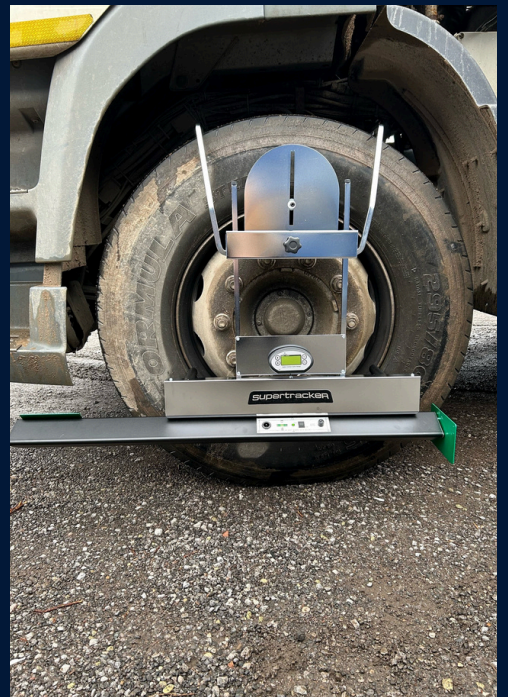

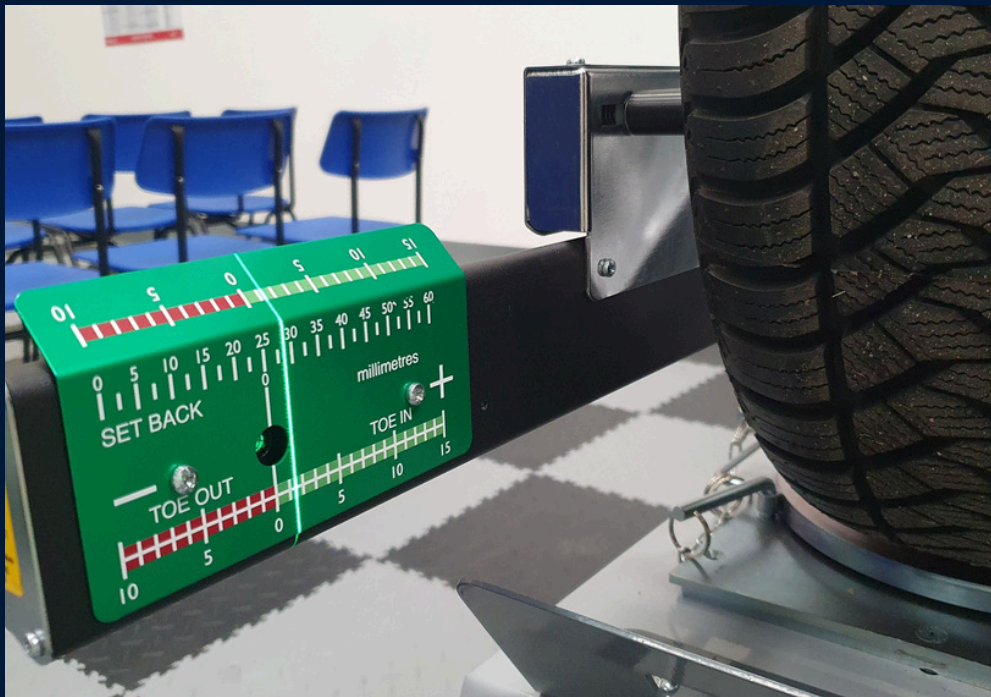

Straightset operate a national fleet of skilled and knowledgeable engineers providing:

- Preventative maintenance contracts
- Calibrations
- Breakdown support
- Parts
